LOCKOUTS:

- If a client wants to leave gear set up overnight, a \$200 lockout fee is charged per day. – The lockout fee guarantees that no other sessions will be booked within the 24 hour period that is 'locked out'.
- The lockout is active for 24 hours after the session START time.

DEPOSITS:

- A deposit of 1/2 down is required before any sessions can be put on the schedule.
- A minimum of 24 hours notice is required to cancel or change session without forfeit of deposit.
- In certain cases, we do allow clients to book time via 'email confirmation'. If this is the case, you are still responsible for the full session payment with less than 24 hours notice of cancellation.
- If your session is a last minute booking (less than 24 hours) you are responsible for all of the full cost of studio time that you committed to, whether you use the time, or not.

MEDIA REQUIREMENTS:

- Clients are expected to bring in their own hard drive (not a thumb drive) or 2" analog reel to record to or mix from.
- If no hard drive or analog reel is provided by client, we can do the session on our session drive, however, any data on our session drive is immediately deleted after the client leaves.
